

## Whirl-Wind Galvanized Box Fan

The Whirl-Wind galvanized box fan has performance, durability, and it is easy to install. This fan features a strong galvanized housing, and heavy duty 12-gauge welded wire mesh guards that are hot dip galvanized. Poly guard clips reduce noise and vibration between the housing and guard. Whirl-Wind fans include attached hanging brackets for quick and easy installation in your poultry, dairy, or commercial building. The high velocity air movement provides maximum air flow at a low electrical cost.

## **Features**

- Available in 24", 36" and 50"
- 18 gauge galvanized housing
- 3, 4, or 6 blade balanced high output propeller
- Lifetime Warranty on 36" and 50" cast aluminum propellers
- Poly guard clips to reduce vibration for quiet performance
- Includes attached hanging brackets for easy installation
- 12 gauge wire mesh guards are hot dip galvanized after welding for long life
- 1" x 2" mesh guards standard on most models
- Belt drive models include a heavy duty spring belt tensioner to reduce bounce at startup, and provide self adjusting equal pressure throughout the life of the belt for high efficiency.
- Shaft bearings are eccentric locking, pre-lubricated, permanently sealed and rubber mounted for smooth operation and reduced blade fatigue, and are covered by a Three Year Warranty.
- Totally enclosed, maintenance-free, high-efficiency motors have completely sealed ball bearings, and are covered by a **Two Year Warranty**
